Dear Miami Lakes Chamber of Commerce,

I would like to thank you for your generous \$1,000 Miami Lakes Chamber of Commerce Scholarship. I am honored and very appreciative to have been selected as a recipient of your financial aid award.

I am a first year Computer Science major, with the intent of pursuing a minor in Business Administration. I also plan on pursuing a career in Computer Networking upon graduating from the University of Florida. In the essay portion of my scholarship application I told you that, education promises to grant me the opportunity to gain enough knowledge and experience to positively impact the lives of the people around me, it can serve no greater purpose. This remains true, despite any difficulties I may face I will continuously endeavor to further my education. As a result of your contribution I am one step further along in completing my education, which only more greatly enables me to use technology in a way that would benefit the people in my community.

I am nearing the end of my first semester in college and your generous scholarship support has lightened my financial burden and allowed me to concentrate on schoolwork without having to worry about various financial obligations such as books and housing. Your generosity encourages me to continue my studies wholeheartedly and strive for academic success at all levels. Again, I am very thankful for your contribution and consideration.

Sincerely,

Micah Stevens
